Skills

Swift using UIKit and SwiftUI
JavaScript, React, Python
HTML / CSS

About Me

As a life long learner, I am always looking to learn new things. I love to develop native iOS and macOS apps with Swift using UIKit programmatically or with storyboards. Now with SwiftUI, there are great possibilities to develop apps cross-platform for macOS, iPadOS, tvOS and watchOS using a shared codebase. It is exciting.

My motto is "Mens Sana in Corpore Sano", which for me takes the meaning of feeling good after exercising. I like jogging and cycling.

I also have a passion for learning languages. Sometimes I contribute to localising open source apps in German, French or Italian.
